

Part 1 of 2: Mentimeter Q & A

How do YOU build PEACE in your COMMUNITY?

- Sitting with people who have a different narrative and listening to their stories.
- support local farmers, buy sustainable and fair-trade clothing
- I try to lift people up, showing them that they have power and strength even when they feel desolate.
- Sharing, teaching & listening to Rotarians in my district and beyond about Rotary's history and involvement in Peace
- My husband and I stay connected with our neighbors. We share our comings and goings so we can support each other in keeping our community safe.
- I build peace by supporting fellowship. I talk with my neighbors. I open my heart to all.
- Helping neighbors in need. Learning and educating about equity. Speaking out about the impacts of trauma and inequity.
- Listen to other's stories / narratives to understand their perspectives better. Show compassion / empathy / LOVE to all. Look at things as BOTH AND instead of EITHER OR.
- Active within Rotary & Arizona Interfaith Movement an NP that promotes the Golden Rule within schools, communities, city/town administration and faith communities. My skill is assistance via press releases & social media peace-related posts.
- My challenge in District 5000 is to advocate for the RAG for Peace Peacebuilder Club program, and for the RAG, and the UN Rotary relationship.
- raising the voice of people who do not have a voice
- Providing financial, emotional, and mentoring support to students to 3 Interact clubs at schools in the Glendale/Phoenix area; supporting Rotary Youth Exchange; supporting the Rotary Vocational Fund of AZ, serving the Arizona-Sonora microcredit program
- through conversation with those who may not agree with me and those who may not look like me and those who may not feel that I think like them - plus I remind myself to not judge anyone else, that's not my job and then I remind myself again
- Matchmaking partnerships among organizations dedicated to peace, including Rotary
- I build PEACE in my community by doing community service, mentoring students, gathering important information and sharing it with others to end homelessness and food insecurities in my community and beyond. No one is a stranger to receive love.
- Gather and talk
- I coordinate the Peacebuilders Network for our District 5495. It is a collaborative effort among Rotarians to bring Peacebuilding resources, ideas and events to our own clubs and communities.
- I work with our small community's Meals on Wheels Program, and with my Rotary Club
- PALZ - Professionals with Alzheimer's bringing peace and dignity to diagnoses
- I volunteer as D5500's youth Exchange Officer. Youth exchange students and alumni build peace and understanding at the local level!
- Collaborations with other nonprofits, individuals, and corporations in projects for the benefit of our community -- near AND far.
- Being a good listener
- Increasing Peacebuilder Clubs in District 5500.

How do YOU build PEACE in your COMMUNITY?

- Advocacy for immigrants
- Advocate for policy changes that address injustices
- Another crucial engagement for Rotarians is to explore our strategic partnerships with the IEP and MBBI.
- advocating for social justice
- I love Hewko's statement, "Every act of service is an active of peace." Serving family, or advocating for racial justice, or grant-writing for WASH.

Who are the YOUTH making a difference in your community and how can you support them?

- The youth in our church are making an impact by assisting the elderly with yard work, painting, cleaning homes etc... I really haven't been supporting them... I am saddened to say that. I will start asking how I can support them. Thank you

- Sitting at THEIR table
- I take with me the question: "How will I show up?"
- Peace starts with showing others compassion

- 01:31:24 nadina: me
- 01:31:26 Dave Tiller: me
- 01:31:28 zramirez: me
- 01:31:30 Gwyn Nichols, Thunderbird RC: Clarence, how would you begin the redesign?
- 01:31:34 Dave Tiller: me
- 01:31:37 nadina: me
- 01:31:38 Rebecca Wilks: me
- 01:31:56 Hannah Miller: How can the US address gaps in social services that keep people from being lifted beyond poverty, such as a person who gets a second job/higher paying job and then gets kicked off food stamps or free school lunch while still not having enough?
- 01:31:59 Katreena Hayes-Wood: Me on both! We serve Native American communities around the US.
- 01:33:03 cathy: Excellent thanks Clarence
- 01:33:07 Nancy Van Pelt: Thank you so much Clarence. Such an important and thought-provoking message.
- 01:33:17 Kevin Pitts RC of Prescott: Do you think UBI (universal basic income) would replace a lot of those programs?
- 01:34:13 Melinda Cadena: Love this Clarence!!!
- 01:35:01 Judy Rubin: Great analogy with the circus safety net
- 01:35:32 Mike Zongolowicz: Thank you Clarence! Public/private collaboration needs to be increased.
- 01:36:05 cathy: PALZ - Professionals with Alzheimer's (Australia) www.palzglobal.org.au Fb Palzglobal No cost and bringing dignity and self-respect to high-functioning diagnoses as no agency could meet the specific needs of those impacted
- 01:36:52 Jay McCall: Great concept. how do you deal with all the political reasons the multi agencies justify their existence?

- 01:38:48 Meltem Kilicaslan: Thank you Clarence. The safety net story you shared is very self explanatory. Who, which groups are involved in changing the design of the American safety net? Did the redesign process started?
- 01:39:49 April Jones: How can we get involved in making this important change? Is there a website?
- 01:40:46 John Wintersteen: Jay, remember that these multiple agencies did not create themselves -- a legislature did, maybe following up on an executive order of the President, or a governor, or mayor, etc. And these agencies justify their continuation by showing how they meet the intentions of the original legislation and/or executive order, as modified over the years.
- 01:40:47 Nicole Olvera: Nicole Olvera DES Division of Child Support Services
nicoleolvera@azdes.gov
- 01:40:50 FAC-Cheryl Epps: Great info, and very helpful! Thanks Clarence!
- 01:40:51 Gwyn Nichols, Thunderbird RC: Actually, instead of a week with Clarence, could we have a semester?
- 01:41:48 Zarrin C.: Reality check of US Government debt at almost \$27 trillion and growing. Government is running on "virtual money." Community support and more involvement in helping each other may be only solution ... as Clarence is noting.
- 01:42:49 Meltem Kilicaslan: Clarence, you touched on Movement Theory in Peace Building. What are your thoughts on how to unite movements, people?
- 01:42:51 Melinda Cadena: Yes Gwyn! I'd love more time with him. Love everything he's saying.
- 01:45:17 Jay McCall: Clarence, Thank you!! Keep up the fight for real peace, equity and justice.
- 01:45:33 Judi Edmonds: So inspiring and thoughtful!!! Now we need the plan.
- 01:45:57 Rebecca Wilks: @Judi yes.
- 01:45:57 Mark Harbison District 5000 (Hawaii): Reality is that a lot of the most vulnerable people will not be able to adapt to an increasingly technical society. There is no path to empowerment that will help them outside of UBI and other government services.
- 01:46:00 Melinda Cadena: Clarence can you please write a book? I'll buy it! 😊
- 01:46:29 Teresa Lucas: Clarence, thank you for being a problem solver!
- 01:47:12 Mary Zongolowicz: Thank you Clarence! Would love to hear more.

How do we apply “begin with the end in mind” to our community projects and influence public policy?
What ideas do you have to unlock the “profound power of the individual”?

- 03:09:06 FAC-Cheryl Epps: Our group discussed the importance of engaging those most affected as part of the planning process. Community building and a lot of international efforts. Being intentional about reaching out to people not like us. Overall, bringing people together. Get rid of labels.
- 03:09:24 Dennis Wong: Rotary and Rotarians may need to get into policymaking (will it be beneficial to all concerned) while avoiding partican politics ... avoid endorsing any political party or candidate.
- 03:10:21 Mark Harbison District 5000 (Hawaii): I was in Group 12. Very interesting. I am actually from District 5000 in Hawaii, while most of the Rotarians in our breakout were from Arizona. Amazing how Rotarians think alike. Nadina put her finger on it--the power of Rotary to "unlike the power of the individual" Nadina said that just the being around such energetic people committed to service to the community, locally and internationally. We share so many projects--dictionaries for students, schools supplies support for teachers who need to work with vulnerable children, programs to provide other services to schools. And the commitment to international service, dynamic international projects that partner with other Rotary Clubs. Lee is a recent transfer from Cornell (also a slightly longer ago transfer from Hana, Maui), taught leadership and is now looking ways to give service herself rather than just leading others. But that got some us talking about RYLA, and JR jumped in and said that she is RYLA Chair for her Club and told us about transforming RYLA

 - 06:22:43 Fac Sneha Pujani: yay Nadina!

We may differ in our beliefs but we recognize that we get to create heaven (of hell) for ourselves and those around us. Regarding Pos Paz - the "people" are hungry for peace and will champion it in their communities when given the change. Sofia and Coke - Role Models; Motivated; Resilient; Infectious; Confident.

 - 06:26:53 Coke Perales: I am speaking for our group
 - 06:27:02 Amanda Erickson: There were so many wonderful points in our discussion, but one thing that stood out for me is to figure out how to connect youth who are struggling and making poor choices and inviting them to RYLA. Being around positive and inspiring people can have a profound impact on youth.
 - 06:27:39 Kevin Pitts RC of Prescott: tough conversations are key in peace work, the attributes of today's youth leaders are so impressive and far exceed what we experienced as youngsters, because of scarcity mentality it is natural to resort to a competitive stance but what is needed is competition, finding youth leaders requires listening and looking with the heart and not pre-

judging, sometimes you have to let leaders make decisions and even fail as a part of the learning process

- 06:28:17 Kevin Pitts RC of Prescott: collaboration not competition
- 06:30:14 April Jones: Group 1 Steve add humble to our list of attributes
- 06:30:57 Amanda Erickson: We had a similar discussion Coke. Youth's mentoring adults and vice versa - the mentorship role is shared despite age.

- 06:33:12 April Jones: Excellent Ken!
- 06:33:20 John Wintersteen: Ken, that's a key point!
- 06:34:31 Ray: Going back to Chuck's opening statement .. I have always support Peace ... I saw Peace Builder ... in the youth. Great Message
